Right Click the Brewster Walsh Icon and select Properties.

Click on the Security Tab.

Brewster Walsh & Associates Properties
General Options Security Networking Sharing
Type of VPN:
Point to Point Tunneling Protocol (PPTP)
<u>D</u> ata encryption:
Require encryption (disconnect if server declines)
Authentication
Use Extensible Authentication Protocol (EAP)
✓
P <u>r</u> operties
Allow these protocols
Unencrypted password (PAP)
Challenge <u>H</u> andshake Authentication Protocol (CHAP)
✓ Microsoft CHAP Version 2 (MS-CHAP v2)
Automatically use my Windows logon name and password (and domain, if any)
OK Cancel

Make sure your settings look the same as above, selecting Require Encryption and Disconnect if Server declines, also tick the two CHAP Boxes and click ok.

Click OK and Close. You are ready to connect.

Click the Radar Bar/Computer Icon in the right hand corner bottom corner of the screen, if you hover over them it's the one that says network.

Click Brewster Walsh and connect, input your username, username@brewsterwalsh and your password.

Now setup a Remote Desktop connection with the computer name for Portland as 10.10.2.40 and Hamilton as 10.10.3.30

Username as BREWSTERWALSH\username and your password.

Save this as a Shortcut to your desktop.
